Environment Park

# GUIDED TOURS

AUSTRALIAN COMMUNITY BUILDING  
**PLUS** ENVIRONMENTAL SUSTAINABILITY

Bring your group to CERES  
on a booked guided tour!

A CERES tour will give you an insight into innovative local solutions to energy and water sustainability, food production and distribution. See hands on education in action and encounter successful social enterprises that combine principles of equity and sustainability.

Our tours are designed for local government representatives, educators, designers and engineers, students, eco-tourists, gardeners - anyone interested in a sustainable future. Overseas visitors also gain a unique cultural awareness of Australia.

Take a general tour or focus on a specific topic such as ' Food Systems', 'Renewable Energy in Action', 'Environmental Education in the Field' and 'Environmentally Sustainable Building. '

Tours are led by trained sustainability educators who are knowledgeable and passionate about CERES - its history, governance, programs and people!

## What is CERES?

CERES Community Environment Park is unique. Established 30 years ago on a disused municipal landfill, CERES fosters awareness and action on environmental and social issues. Get off the beaten track, CERES has everything from worm farms to wind turbines, from free range chooks to fair trade coffee and a wide range of programs and activities.

**When** The tours are available  
Monday - Friday 9.00am -4.00pm

Weekend by special arrangement

**Duration** 1 hour
